Dear Metallurgy Sector Representatives,

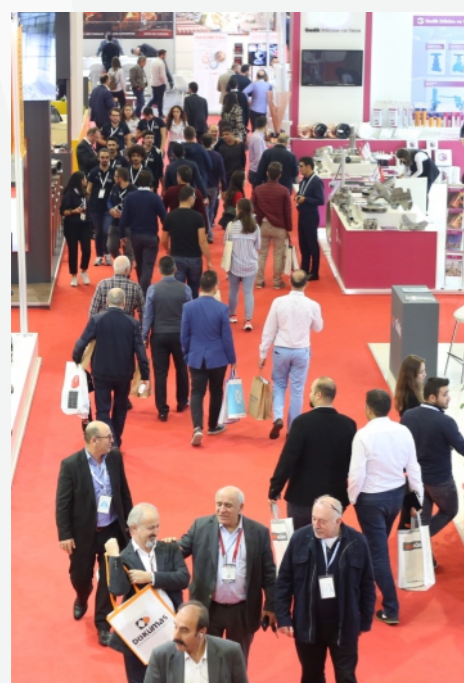

Eurasia's largest Metallurgy Platform, ANKIROS, will be organized in a new fairground and will take place together with TURKCAST-Casting Products Special Section, ANNOFER-Non-Ferrous Metallurgy Technologies Special Section and STEEL Special Section at Istanbul Expo Center on 19-21 September 2024. In line with the demand from the industry, we have moved to new fairground and halls in order to expand to desired target.

Ankiros continues to be the only event of the region where the Turkish Metallurgy industry reaches the right targets with its production, growing and expanding supply network. At ANKIROS Fair, we aim to bring metallurgy industry professionals from all over the world, including Turkey and the Eurasia Region, together once again!

Supported by TUDOKSAD - Turkish Foundry Association, TCUD-Turkish Steel Producers Association and UCTEA Chamber of Metallurgical and Material Engineers, ANKIROS 2024, which is the only meeting place in Turkey for companies seeking high quality in the metallurgy industry, aims to bring new markets, new customers, and international relations to its exhibitors. It is a unique platform to introduce the Turkish Metallurgy World to international companies that want to develop, promote their products to target audiences in our country as well as in the neighboring geography, protect and strengthen their current sales and business connections, create competitive conditions, and invest in the Turkish market!

We invite you to take your place to share your company's activities and success stories with the global Metallurgy industry, to establish long-term customer relations, and to have the opportunity to meet face-to-face with importers, distributors, and industry professionals!

Ankiros Team

**ANKIROS is the best place to find receptive partners and to have productive negotiations.**

**New Venue,  
New Halls!**

- Large and renovated halls
- Close to trade centers and city center
- Easy transportation by vehicle and public transportation

## Concurrent Congresses

### 22nd International Metallurgy and Materials Congress

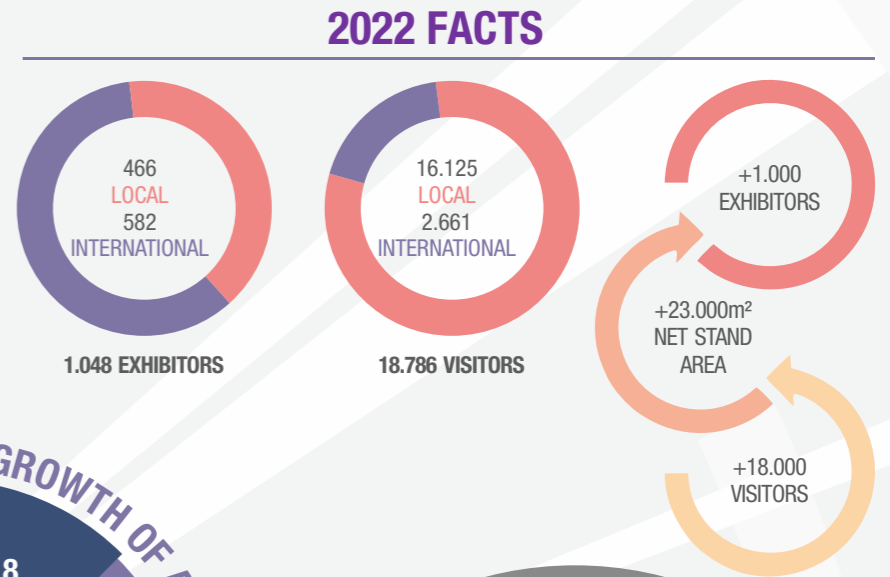

Organized by METEM – UCTEA Chamber of Metallurgical Engineers Training Center IMMC provides a great platform to collaborate with industry and academics to share ideas, develop and build partnerships.  
[www.metem.org.tr](http://www.metem.org.tr)

### 12th International Foundry Congress

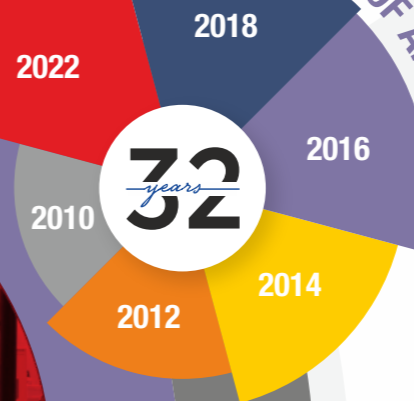

Organized by TUDOKSAD – Turkish Foundry Association  
The purpose of the congress is to ensure that the knowledge and experiences related to academic, technological, economic, commercial and practical studies related to the casting industry are transferred to the participants and that common issues are shared mutually.

## THE GROWTH OF ANKIROS

## TURKCAST Special Section

TURKCAST Special Section focuses on foundry products which are produced with different casting technologies, for the developing industries, from heavy industry looms to agricultural machinery, from shipbuilding to automotive, from construction to urban planning, from transportation to heating and many more industrial fields. The increase in the production figures of the Turkish casting industry with the advantage of its geographical location, its up-to-date technology and rapidly developing knowledge show how important Turkey is in casting exports.

TURKCAST, being the meeting point of the Turkish Casting Industry, has reached to an important point in the world, offers its visitors the opportunity to gather with reliable Turkish foundries.

For detailed information:

## STEEL Special Section

"Steel Special Section" for Iron and Steel Producers

Being in a very important status of Turkish exports; The steel industry, will meet at ANKIROS in larger halls with the support of TCUD Turkish Steel Producers Association. In addition to the international suppliers of the steel industry, the leading producers of the iron and steel industry and steel service centers will have the opportunity to exhibit their developing technologies, services and products in the special iron and steel hall.

Do not miss the opportunity to be in this unique meeting point, which is the heart of the Turkish steel industry.

## ANNOFER Special Section

The Most Important Station of Non-Ferrous Metals

In the Non-Ferrous Metals section, exhibitors will showcase the latest machinery, equipment, products, raw materials, and consumables in the field of non-ferrous metals.

This section focuses on the facilities and equipment required for the production and forming of non-ferrous metals. All kinds of machinery and equipment needed for metallurgical facilities, rolling mills and raw material processing will be in this area to for the visitors.

## EXHIBITORS SURVEY

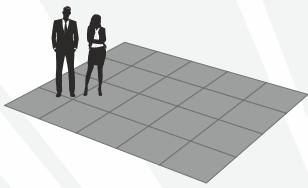

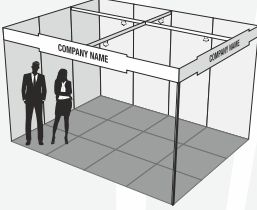

✓%97 The 97.1% of exhibitors at ANKIROS / TURKCAST have stated that they left the fair very satisfied.

✓%97 The 97% of ANKIROS / TURKCAST exhibitors have indicated that they will exhibit again ANKIROS / TURKCAST 2024.

✓%98 The 98% of the exhibitors stated their satisfaction with the product technologies exhibited at the fair. The 94% of them stated that they reached the targets they planned at the fair.

Come to ANKIROS and be in the center of innovation and solid partnerships.

## Cost of Participation

		
<b>Raw Space</b>	<b>Standard Stand</b>	<b>Furnished</b>
